My dear Kehoe:

Thanks very much for your letter of April 29th enclosing copy of your paper on "Lead Exposure of Man Engaged in Mixing".

There is no objection by this Company to your publishing this material if you wish or using it in any other way. I have no criticism of it as it seems excellent.

It would seem to me that the Tables give an amount of data which might be considered unnecessary by the publisher of your journals, but you know more about that than I do.

Very truly yours,

Graham Edgar
