INTER-OFFICE CORRESPONDENCE

Industrial BIO-TEST Laboratories, Inc.

FROM: OEF DATE: December 4, 1969

TO: MLK, JP, DA, JFV, DL SUBJECT: Monsanto Aroclor Studies

Mr. Wheeler called on 12/3/69 to inquire as to whether or not there was to be a six-month sacrifice in connection with the rat study and to ask about the histological work done in connection with the three-month sacrifice.

Please provide me with short status summaries for the rat, dog and reproduction studies.

Since there is great anxiety at Monsanto about the whole Aroclor situation, I feel that we should send brief status summaries at three-month intervals whether or not a sacrifice or a more formal report is scheduled.
