RE: OSHA Citation

Dear Mr. Wheeler:

I understand that you have been working with Mr. Warren Gregory of our General Adhesives & Chemical Company regarding the OSHA Citation recently issued against products manufactured by Union Carbide. In this connection, I should appreciate it if you could provide me with some additional information in order to substantiate our case.

I have a copy of the letter of March 25, 1975 to you from Mr. Grover C. Wrenn of the U. S. Department of Labor. I should appreciate it if you would provide me with a certified copy of this letter, i.e., a xerox whereupon a Notary Public has written in the lower right hand corner the following:

CERTIFIED COPY. I have compared this xerox copy with the original and find them to be identical in all respects.

Notary Public

Have this signed and the notary seal affixed thereto. This will provide me with the best evidence available for this letter, if necessary.

Additionally, I should appreciate it if you would provide me with the exact name of the product you ship to our General Adhesives & Chemical Company and how this product ties into the terms mentioned in Mr. Wrenn's letter. Mr. Wrenn's letter specifically refers to "Vinyl Coating Resins" and "Solution and Dispersion Polyvinyl Chloride". I need to know if he is specifically making reference to the products we have in our plant.

P. O. Box 941 • Nashville, Tennessee, U. S. A. 37202 • Cable Address "GENCORP" • Telex 55-4437 • Telephone 615 747-6442

Also, the fabricated product is defined as a product made wholly or partly from polyvinyl chloride. I assume that polyvinyl chloride is the abbreviated name used for the product in question.

Thank you very much for your help on this. With kindest regards,
I am

Very truly yours,

GENESCO Inc.
