

All Aboard for Sea Girt!

YES, INDEED! It's about time for US N. R. A.'s to go in your bag, the bag to go with you on the train and the train to go to Sea Girt. From the north, the south, the west, the members of the shooting clan are gathering to the clarion call of popping .22's. They're rallying 'round the clubhouse on the old Jersey range for the 33rd Annual Inter-State Tournament.

You and US .22 N. R. A.'s will be there, of course. N. R. A.'s always have been found in the very best of company. They have chummed around with international, national, state and club champions for years.
