

March 11, 1939

Dr. Sidney McGurdy
Supervisor, Medical Section
The Industrial Commission of Ohio
Columbus, Ohio

Re: O. D. 14570

Dear Doctor McGurdy:-

This is to advise you that the above claimant is not under treatment at my hands and has never been given any treatment.

If you will refer to your communication to me dated January 13, 1939, you will note that I was authorized to make the examination for the purpose of making a diagnosis and for the expression of an opinion with respect to the degree of disability now present in this man. I reported my findings on February 4th. My report included some suggestions with regard to this man's treatment, but in as much as no treatment had been authorized, none was given.

If you wish me to institute treatment, I suggest that you refer to my report and my recommendations, and send me such authorization as is required.

Very truly yours,

RAK:is

Robert A. Kehoe, M.D.
