9 BY MR. WILLIAMS:

10 Q Mr. Anderson, did any of your department's
11 research assist in designing ways to keep dust levels
12 down during automobile brake service?

13 A Yes.

14 Q Can you tell the jury how your research
15 assisted in that?

16 A Early '70s I think, probably 1972 to 1973 we
17 provided assistance to the group that has jurisdiction
18 over the garages, the Ford experimental and research
19 garages. And we had a couple of studies looking in at
20 fiber release during brake servicing using standard
21 techniques and using a vacuum cleaner.
