Dr. W. J. Denno
Standard Oil Co. of New Jersey
30 Rockefeller Plaza
New York, N. Y.

Dear Dr. Denno:

Mr. Klemmer

In the Spring of 1934 our Management approved a program developed by Mr. C. R. Dooley and yourself whereby the Medical Department of the Standard Oil Company of New Jersey agreed to furnish medical service to the employees of the Socony-Vacuum Oil Company, Inc. and associated companies at 26 Broadway, including such special cases from other locations as may be referred here. Xray equipment, the clinic and general medical advice at the New Jersey Company's medical department at Rockefeller Center was also made available. The annual fee for these facilities was set at $10,000, payable quarterly.

We believe that at 26 Broadway with our present facilities, we are now in a position to meet our requirements and if agreeable to yourself and your Management will try and go along under our own steam starting January 1, 1942.

We appreciate very much the helpful assistance which during the past eight years has been extended to us by both yourself and others in your office.

Mr. Klemmer those medical

Yours very truly,

W. H. McCrishie.
