re: Chemical Abstracts

Dear Mr. Fite:

I am enclosing copies of the chemical abstracts that I spoke to you about over the telephone. Please also be advised that I believe that the following chemical companies are members of the Chemical Abstract Society and received all of the enclosed materials in the 1930's, 1940's and 1950's or their respective subsidiaries and did absolutely nothing to warn anyone of the dangers of asbestos:

- Parent
corporate
associates*
1. GAF Corporation
 2. Foster Wheeler Corporation
 3. Owens Corning Corporation
 4. Armstrong World Industries
 5. PPG

*old name
(was with ACS)*

In fact, in 1938, the Chemical Abstract Society set up a special heading called "Asbestosis" because there were so many articles warning of the dangers of asbestos.

I would appreciate if you could contact me after you review the materials.

Very truly yours,
Richard P. Neuworth
