Dear Administrator Pruitt:

Thank you for taking the time to speak with me last week about the Agency and the position of Assistant Administrator for the Office of Land and Emergency Management. I completely agree with your assessment about the opportunity that exists to make tremendous progress in the reforming and reviving of the remediation of sites that will lead to many sites being put back into productive use. I am excited for the opportunity to drive the implementation of the Superfund Task Force's recommendations compiled and coordinated by Kell Kelly together with the EPA professionals and others stakeholders. I am also excited about the opportunity to work with you and join the all-star team that you have assembled.

I have spent thirty years preparing for this opportunity to provide the benefit of my experience in the service of the leadership and management needed to drive this very important work. I look forward to being of service to you and your administration of the Agency and to the current and future generations of America who will benefit from our work.

Sincerely Yours,

Peter Wright
