Dear Has:

Attached please find the completed ballot calling for corporate votes for the continuance/discontinuance of the VCM Case Control Study. Shell believes that the study as described is worthwhile and should be undertaken. We are casting our ballot therefore, in favor of the study.

Since we have been producers of Vinyl Chloride monomer for many years, we have a vested interest to the determination of any health effects resulting from exposure to the product. At the same time, our interest from this time forward will be more retrospective than active, since VCM no longer plays a role in our chemical portfolio. We will still however, be most interested in the results of the study, and will appreciate being kept informed of its progress and its final results.

Best regards,

James J. Bonin
Manager, Plans & Integration

CHEMICAL MANUFACTURERS ASSOCIATION

VINYL CHLORIDE RESEARCH PROGRAM

Commitment Form

My company agrees to undertake the study proposed in Dr. William Gaffey's letter of January 30, 1987. I understand that the study will be completed from the existing funds and no additional financial commitment will be required.

My company does not agree to undertake the study proposed in Dr. Gaffey's letter.
