Subject: EPA

Dear Ms Beck:

I am a conservative, probably as conservative as you can get. I am also a hunter and fisherman. Grew up farming. I am however a quasi tree hugger because everything I like to do involves the outdoors and nature.

I read an article tonight on your past and your appointment to your position. And I am afraid to say that if 1/20 of what was in the article is true you should be ashamed of yourself. How can a person who has been involved with industry so much be unbiased in protecting America. If anything, I would think someone would want to error on the side of caution when it comes to chemicals like I read about tonight.

However, that does not seem to be your direction and I am deeply concerned about how you are protecting Americans and the environment. I will be calling my Senator and personally seeing my congressmen and voicing my displeasure at your lack of concern for me and my family.

James Wellman
