

March 1, 1932.

Mr. W. A. Williams, Vice-Pres.,
Johns-Manville Corporation,
292 Madison Avenue,
New York, N. Y.

Dear Sir:

I have your letter of February 26 with reference to my reading the X-ray films made in connection with the physical examination of employees of the Johns-Manville Corporation at its Manville, New Jersey Plant. The letter which I received from Dr. Lanza on this matter was forwarded to the Chief Surgeon of the Bureau of Mines at Washington, D.C., (Dr. F.R. Sayers), for his approval, and if such approval is obtained I can undertake the work. I would, therefore, suggest that no films be sent to me until such consent is obtained.

I will notify Dr. Lanza upon receipt of Dr. Sayers' decision.

Yours respectfully,

F. V. Merivether
F. V. Merivether,
Surgeon in Charge.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

To all to whom these presents shall come. Greeting:

By virtue of the authority vested in me by the Archivist of the United States, I certify on his behalf,
Under the seal of the National Archives of the United States, that the attached reproduction(s) is a true and
copy of documents in his custody.

Counsel, yesterday and he is going to start shipping the films to you. To make the record straight, Mr. Brown will write a letter to the Surgeon-General, on receipt of which the Surgeon-General will write another letter to Doctor Sayers and everything will be in order.

With best regards,

Sincerely,
