

INDEX

Boldface numbers refer to chapters of the book, lightface numbers refer to pages in a given chapter, i.e., 24-9 means chapter 24, page 9

A		Page
A-frame derrick	18-17	
Abaca rope	21-1	
Abandonment of storage tanks	32-29	
Abbreviations, listing	43-44	
Abdominal protective equipment	38-48	
Abrasive blasting protectors, personal	36-29	
Abrasive disks		
guarding	24-20	
mounting	24-19	
safe operation	24-12, 26	
storage and handling	24-12	
Abrasive wheels		
dressing	24-29	
flanges	24-14	
guarding	24-20	
mounting	24-14	
safe operation	24-12, 26, 30-19	
storage and handling	24-12	
Absorbed dose, radiation	42-9	
Accident prevention		
philosophy	1-1	
reasons for	1-3	
research	1-17	
safe design	4-1	
statistics	1-9, 16	
Accidents		
analyses	9-1, 9, 10-3	
cost, estimating	10-12	
cost, vehicle	44-2	
emergency plans to handle	35-5	
hazards, on-the-job	38-19	
investigation	10-1	
key facts	10-4	
proneness	1-19	
publicity angle	8-10	
radiation, experience	42-11	
records	9-1	
repeaters, training	6-20	
reporting, vehicle	44-3	
Acetaldehyde, toxicity	40-13	
Acetanilide, toxicity	40-14	
Acetic acid, toxicity	40-14	
Acetic anhydride, toxicity	40-14	
Acetone cyanohydrin, toxicity	40-14	
Acetone, toxicity	40-14	
Acetonitrile, toxicity	40-14	
Acetylene		
generators	29-2	
International Acetylene Association	12-17	
toxicity	40-15	
Acid carboys, storing and handling	17-15	
Acid hoods, personal protective	36-17	
Acoustics (see Noise)		
Acrolein, toxicity	40-15	
Acrylonitrile, toxicity	40-15	
Activities, safety program	7-3	
Activity, radiation	42-9	
Advertising, safety	8-12	
Adzes, use of	30-9	
Aerial conveyors	18-37	
Air analysis, physical methods of	39-34	
Air cleaners	28-15	
Air clutches, power press	23-45	
Air conditioning, design considerations	14-13	
Air foam fire control system	34-11	
Air Force, Department of	12-24	
Air heaters, as source of fire	33-12	
Air hoists	18-3	
Air line respirators	36-29, 39-39	
Air, makeup	29-63	
Air power tools	30-20	
Air preheaters, combustion	16-4	
Air, recirculation	28-47	
Air supplied hoods	36-23	
Air supplied suits	36-23	
Airborne contaminants, table	28-29	
Airborne particulate matter, concentrations	45-39	
Aisles	14-12	
materials handling	17-21	
(also see Walkways)		
Alarms		
automatic fire sprinkler	34-6	
emergency	35-14	
Alcohols, physiological effects	39-10	
Aldehydes, physiological effects	39-10	
Aldrin, toxicity	40-15	
Alkali equivalents, table	40-25	
Allergic reactions	39-6	

NOTE Chemicals that are listed in tables are not indexed. See Chapter 41, "Table of Chemical Hazards," and Chapter 45, "Safety Engineering Tables." If chemicals are discussed in other chapters in detail, they are indexed in this listing
