

Jerald Uptain

CONOCO

To JF, CRM, DEPT. HEADS

Date 4/8/82

ATTACHED IS A COPY OF OSHA'S
NEW STANDARD ON "HAZARD
COMMUNICATION." THIS STANDARD,
LONG ANTICIPATED [AND FREQUENTLY
REFERRED TO AS THE "LABELING
STANDARD"], HAS JUST BEEN RECEIVED.
NO ONE @ ABERDEEN HAS YET READ IT,
BUT A QUICK SCAN SHOWS THAT:

1. THE STANDARD REQUIRES PRODUCERS
AND USERS OF HAZARDOUS
CHEMICALS TO PROVIDE INFORMATION
TO EMPLOYEES VIA SEVERAL
ROUTES, INCLUDING A COMMUNICATIONS
PROGRAM, LABELS, DATA SHEETS, ETC.
2. COMPLIANCE IS REQUIRED
IN $\approx 1\frac{1}{2}$ - $2\frac{1}{2}$ YEARS

A COMPLIANCE ASSESSMENT MEETING WILL
PROBABLY BE NEEDED IN PERHAPS 2-3 WEEKS.
