

1 BY MR. DAILY:

2 Q Now, during your years as a mechanic and
3 while you were working at Foreign Motors in
4 particular, would it be fair to say during the 1960s
5 that your work with brakes was about 20 to 25 percent
6 of your time?

7 A Pretty close, yes.

8 Q Okay. I think you told us during deposition
9 during the '70s it was about the same percentage; is
10 that right?

11 A Yes.

12 Q Okay. Now, during all of these years while
13 you were working at Foreign Motors, there were other
14 mechanics working there, weren't there, sir?

15 A Yes, there was.

16 Q Okay. In fact, I think you told us in the
17 '50s when you started, there were about nine or ten
18 other mechanics?

19 A Around there.

20 Q Some point it got up to around 11 or 15 and
21 at one point even 22; is that right?
