

*That's the paint that
kept our house white
for so many years!*

A WHITE HOUSE will stay white for years when painted with Du Pont House Paint. For dirt and grime can't get a toe-hold! Heavy rains wash them away... and exterior surfaces keep that freshly painted look.

Self-Cleaning Du Pont House Paint is so formulated that, as time goes by, a microscopically fine white powder forms on the surface. Heavy rains wash the powder away, taking dust and dirt with it, and leaving the surface clean and white again. Excessive accumulations of dirt (particularly in sooty industrial communities or in heavily shaded locations) and stains from copper screens may delay or interfere with this process. Because this "self-cleaning" is gradual, the wearing qualities of the paint film are not abnormally affected.

Available in white or popular tints. Self-Cleaning Du Pont House Paint is as durable as it is beautiful. It protects against rust, rot and decay—giving lasting beauty and protection. Yet it costs no more than other good paints. Call on a reliable painter for your painting job. He'll be glad to use Du Pont House Paint.

Note: Due to raw material shortages, your dealer may be out of Du Pont House Paint temporarily. However, it's worth waiting for.

also the Foreign Ministry portfolio which he held in the outgoing Cabinet of Baron Kijuro Shidehara. One of three Ministers without portfolio was slated to go to Shidehara, who heads the Progressive Party.

The Diet session was featured by a fervent forty-five minute speech by Yukio Ozaki, who at 87 is the oldest man in the House. Ozaki urged that offices be given only to "men of high character," regardless of politics.

Ozaki's plea was presented in the form of a motion, which was voted down, 228 to 217, with twenty-one members absent or abstaining. This was regarded as a victory for Yoshida. The House then proceeded to elect the Speaker and Vice Speaker from the Liberal-Progressive coalition.
