Confidential (For use of Salesmen only.)

Steamship Paint for Decks.

Put up in 1 gal., 5 gals. and bbls.

CAT. NO.	PRICE PER GAL.
2875	
2877	
2878	
2879	
2880	
2882	

This is a superior quality of paint made expressly for the purpose indicated. It dries very quickly. It dries with a hard, elastic surface and is absolutely free from tack. It has great covering capacity and is low in price.

Steamship Liquid Red Lead.

Put up in 1 gal., 5 gals. and bbls.

CAT. NO.	PRICE PER GAL.
2849 (Pigment is strictly pure Red Lead)	1.35
2848 (Pigments are strictly pure Red Lead and strictly pure White Lead equal parts)	1.25

The economy in the use of Steamship Liquid Red Lead on hulls, holds, smoke stacks, etc., is from the fact that it does not get hard in the package and that consequently there is no waste. All liquid red leads in the market other than our own, unless used immediately, become hard in the package and subject the consumer to great loss, often as great as 25 per cent.

Adapted also for Structural Iron Work, Bridges, etc.

INSIDE AND OUTSIDE CABIN PAINT.

Steamship White Lead.

Put up in Kegs, 12 1/2, 25, 50, 100 and 250.

Our Steamship White Lead is especially prepared for marine use, and is in all respects the best Lead in the market for that purpose. It will be found to be very white, of good body and very durable. It is more finely ground than other leads and consequently will be found to be much more economical to use by reason of the increased surface it will cover. It is also especially prepared to resist the destructive action of the water which tends to decompose most leads so that they soon wash off.

Price.....per lb. 5

Steamship Paint, Engine White.

Put up in 12 1/2 and 25.

These are goods especially prepared for heated surfaces. They are ground only in paste form and are to be thinned only with Turpentine. When so used they will not turn yellow, but remain perfectly white for a long time.

Price.....per lb. 8

Steamship Paint, Submarine Hull.

Put up in 5 and bbls.

Numbers of tests made prove that in our Submarine Hull Paint we have an article which will meet the requirements specified, and we also recommend its use for the coating of the inside of hulls, especially the parts below the water line.

One of the most important features is that it will dry readily in a very short time, thereby saving largely in time and expense to the owners.

Price.....per gal. 6
