Hampton - IPD - J. Harrington

I have been informed by Mr. J. Harrington of our Industrial Products Division at Hampton, South Carolina that they will soon be required to start putting labels on all products containing asbestos fibers. A copy of the label is attached.

The purpose of this letter is to inform you so that the impact on the people in the shop can be considered when this goes into effect. Mr. Harrington will delay as long as possible using the labels. Would you please give me or Mr. Harrington your opinion on starting to use these labels.

J. C. Botts, Manager
Insulation Design Engineering
Large Rotating Apparatus Division
