

1 closed, the bay door was closed, it got to be opened.

2 When it was opened, it was only five.

3 Q I misread your chart there. The 13.5
4 represents the peak of the activity when the door was
5 closed?

6 A When the bay door was closed and the
7 monitoring conducted with the automobile bay door open
8 was the five.

9 Q Okay. While you are still up, and we can
10 get rid of -- and before we can get rid of this, I
11 would like to show you what has been marked as Ford
12 Exhibit 86, and I will tell you what this is.

13 This is an attachment to a study or a test
14 done by Dr. Millette, and he has testified in this
15 case.

16 Are you able to identify what this picture
17 represents, Doctor?

18 A I haven't seen it before.

19 Q Well, do you want to take a look at it
20 then?

21 A That is fine. Let me look at it for a
