INTER-LOCKING FLOOR MATS

No-Trip Beveled Edges

Universally used in schools, cafeterias, kitchens, restaurants, bars, shops, behind counters, in factories, institutions, commercial establishments, etc. A matting of incomparable comfort and service wherever people stand or walk at work. Fabricated of $\frac{1}{2}$ " thick all purpose rubber with special "cushioning" effect to eliminate fatigue caused by standing for long periods. Mats are composed of end and center sections which lock securely together. Simply add center sections for any desired length. Each section locks securely, will not separate or move about, yet zips apart easily for removal. End sections are interchangeable and center section locks the same on either end. A mis-fit is impossible. Ribbed surface design insures sure footing. 28-in. x 31-in.
