CIOs, CISOs, IGs, Program Managers**

Potomac Forum Training Workshop

**Latest in Cybersecurity & Implementing the
President's
Cybersecurity Executive Order (EO)
Training Workshop**

*A "How To" Workshop to Implement the
Requirements of the EO and its Reporting Requirements*

Date: Wednesday, November 15, 2017

Sponsored by:

Potomac Forum, Ltd.
the leader in high quality training since 1984

www.PotomacForum.org
(703) 683-1613
info@PotomacForum.org

**Location of Workshop:
Willard InterContinental Hotel
Washington, D.C.**

Potomac Forum Training Workshops are 100% Educational

and NOT Sales or Marketing Events

**Workshop for Government & Industry Partners
Press is Not Permitted to Encourage
Candid Discussion in our Learning Environment**

Government Speakers:

Keynote:

***The Cybersecurity Executive Order:
Building the Next Generation Risk Management Framework
and Controls***

Dr. Ron Ross

NIST Fellow

Author of the NIST Risk Management Framework (RMF) and
Numerous NIST Cyber Security Publications
(Latest Info on Cyber Security Framework,
Security Controls and the
Risk Management Framework)

Dr. Barry C. West

Senior Advisor to DHS CIO

Senior Accountable Official for Risk Management

Department of Homeland Security (DHS)

(Awaiting Agency Approval)

Martin Stanley

Chief, Cybersecurity Branch

National Protections and Programs Directorate (NPPD)

Department of Homeland Security (DHS)

Ricci L. Mulligan

Acting Principal Deputy Assistant Secretary

Office of Information and Technology

Department of Veterans Affairs (VA)

Kirit Amin

Chief Information Officer (CIO)

International Trade Commission (USITC)

Jaime Noble, CAP, CISSP

Deputy Director for IT Security &

**Deputy Chief Information Security Officer
Department of Justice**

**Additional Government Speakers are being approved for
participation by their Agencies**

**Potomac Forum Workshops are 100% educational programs and not
sales or marketing events!**

Overview:

This workshop will focus on the President's EO on Cybersecurity and discuss its requirements. A key requirement is the implementation of NIST's Cybersecurity Framework (CSF). We will present an understanding of the CSF and NIST's Risk Management Framework (RMF) which is a key component of the CSF. The CSF and RMF are critical for the federal government in its efforts to mitigate risk within enterprise information systems. The workshop will provide detailed guidance on the integration of the CSF and RMF into a holistic Cybersecurity solution. In addition, the workshop will address the EO reporting requirements for the first 90-day report and the other reports identified in the EO.

Hear from industry experts and government officials tasked with implementing robust cybersecurity and risk management strategies along with learning how NIST's CSF and RMF can be effectively implemented to reduce the risk of cyber-attacks. Listen to a government panel of CIOs and CISOs to understand the challenges they are facing on a day-to-day basis and how implementation of NIST's CSF and RMF helps them identify the risks and what it takes to mitigate those risks. Gaining insights from the panel and peer interactions at the workshop should be invaluable in implementing the President's EO and moving the needle forward in improving federal cybersecurity.

What You Will Learn:

- The approach used by the NIST RMF
- The value of the integration of the NIST RMF with the NIST CSF
- Development of agency Risk Management Strategies
- Changes in federal information system authorization requirements and guidelines
- Guidance into what agencies can expect from the NIST RMF and new CSF processes
- Importance of Risk Assessments (RA), Security Control Assessments (SCA), and Security Testing & Evaluation (ST&E)
- Security control categorization and how it is used to manage risk
- NIST SP 800-53A, Guide for Assessing the Security Controls in Federal Information Systems and Organizations: Building Effective Security Assessment Plans; NIST SP 800-37 Rev. 1

Guide for Applying the Risk Management Framework to Federal Information Systems: A Security Life Cycle Approach and NIST SP 800-39 Managing Information Security Risk

- Reporting Requirements for the Executive Order
- Best Practices for Responding to the Executive Order

Why You Should Attend

- Review the key steps within the NIST RMF and CSF
- Obtain practical knowledge of how NIST RMF and CSF are incorporated into information system security
- Gain insight into conducting and implementing NIST RMF and CSF in your organization
- Collect information on how NIST frameworks can be leveraged to enhance the security of your organization
- Learn how risk management and cybersecurity are essential for regulatory compliance
- Learn from risk management, security and OIG colleagues in Federal, State and Local Governments
- Learn how other Agencies are responding to the EO

Who Should Attend:

- **CIOs, CISOs and Staff**
- **IT security and risk management practitioners**
- **IGs and Staff**
- **Program Managers responsible for risk management**
- **Government Employees who want to better understand organization risk management**
- **Executives who oversee risk management for the government**
- **All government executives, managers and staff who need to better understand risk management and implementing the President's Executive Order**

CEUs Awarded Upon Workshop Completion

**Potomac Forum is an Authorized Provider
of ICS(2) Credits**

Press is NOT Invited to Register or Attend

"Early Bird" Reduced Registration Until October 15, 2017
