J. D. Kramer, Plant Manager
Tel: (502) 395-4181

15 April 1974

Dear Mr. [REDACTED]:

Our consultants in the study of vinyl chloride, Dr. William Blalock and Dr. Paul Kotin, have informed this plant that one or more of your laboratory determinations were abnormal. These may well be unrelated changes or laboratory error, and for this reason they have requested that the tests be repeated promptly.

You will be notified as to the date for your recheck. These rechecks of the blood sampling will be done at Lourdes Hospital in Paducah to eliminate any problems that may have been caused by transporting the samples from the plant to the hospital.

When these tests have been completed and analyzed, you will be notified as to Dr. Blalock's and Dr. Kotin's opinions.

Sincerely yours,

AIR PRODUCTS & CHEMICALS, INC.
