Dr. M. J. McConnell,
Assistant Medical Director,
Metropolitan Life Insurance Co.,
New York City, N. Y.

Dear Dr. McConnell:

Upon my return from my vacation I found your letter of June 17 and the report of the survey which was made of our plant this spring.

I want to express the appreciation of our Company for this very splendid report, which will be of great value to us in correcting any hazardous dust conditions. I am glad to advise that we are now installing what we consider to be a very complete as well as efficient dust collecting unit in the Tunnel Kiln Grinding Department. The report will be most useful as a guide in carrying on this work in other parts of the plant.

I consider that we are very fortunate in that through our group insurance connection with the Metropolitan we have been able to get the benefit of one of these surveys.

Yours very truly,
A. P. GREEN FIRE BRICK COMPANY
