Dear [REDACTED],

On behalf of DG Fink-Hooijer, we acknowledge receipt of your message, and we thank you for sharing the paper on Schneider Electric's policy recommendations 2024-2029, of which we took careful note.

With kind regards,

[REDACTED]

Subject: Schneider Electric's policy recommendations 2024-2029.

Dear all,

I am happy to share a new paper by Schneider Electric aiming to outline our views and our ideas about how the EU could address some of these challenges at a time of renewal for many of its institutions. **We believe that the EU has the potential to come out on top through a stronger focus on demand-side management and needs to accelerate low-carbon and digital investment to improve its resilience.**

Please do not hesitate to share your feedback on any of the points/proposals within the attached paper.

Thank you.

Kind regards,

[REDACTED]
