P. O. Box 40
Rochdale, Lancs OL12 7EQ

Dear John,

Could you tell me please if any TBA workers on the enclosed list who died of lung cancer have been notified to the Pneumoconiosis Board, and if so, which they were.

May I take this opportunity of asking if Fred Butterfield (Date of Birth 13.8.1883, Date of Death 21.11.1957) was ever considered to have a mesothelioma. I find that I included him in a list of mesothelioma patients, but his death certificate made no mention of this and I am just wondering if I am completely in error. (adj. encl)

Lastly could you tell me if there have been any cases of peritoneal mesothelioma at TBA.

Sorry to trouble you with these questions, and with many thanks for the calendar which now represents the only bit of colour in my room.

With best wishes,

Yours sincerely,

Leo

Oxford OX1 3QG.

Dear Julian,

I refer to your letter dated 23rd April and our subsequent telephone discussions.

I confirm that the earliest convenient date for Dr. Bonsall and myself is Friday, 25th May and we both look forward to meeting you and having further discussions on the update of the TBI cohort and modern counting methods. Perhaps nearer the time you will telephone me and let me have what time your train arrives in Manchester so that I can arrange for a car to bring you to Rochdale.

Kind regards,

Yours sincerely,

M. Sykes. *em*

Dr. Bonsall - Friday the 25th seems to be convenient for all those concerned and Mr. Marks has expressed interest in meeting Julian Peto possibly after lunch. My secretary has booked the small visitors room.
