

1 Chemical Reporter, Journal of the American Medical
2 Association, American Journal of Public Health,
3 Archives of Internal Medicine, British Journal of
4 Public Health, The Medical Clinic of North America.

5 The next interrogatory deals with when
6 Owens-Corning Fiberglas received a copy of the article
7 known as a Health Survey of Pipecovering Operations in
8 Constructing Naval Vessels by Fleischer, Viles, Gade,
9 and Drinker; and their response was it was received by
10 them on January 15th, 1982.

11 The next is an interrogatory that was
12 propounded to Owens-Corning Fiberglas which asked that
13 when did they first learn that there were health
14 hazards associated with the use and fabrication of
15 asbestos asking that they state the date, source,
16 nature, and extent of the information; and their
17 response was January 1941 in correspondence received
18 from the Saranac Laboratory, copies of which were
19 previously provided to counsel.

20 The next interrogatory was number 47 in the
21 Osthimer case.
