BEGIN INSERT B

SHAC is handling 1976 Annual Inspection comments as follows:

- a* 1. Central shops audit. Task Force has been formed consisting of Leonard Schwab, Russ Furley, Jim Ingram, John Ringer and George Orum.
- B* 2. Laboratory facilities (Research Bldgs.) atmospheric contamination. PT Safety Committee will handle.
- C* 3. Overhead construction practices, warning signs, etc. Jim Gatewood will undertake this assignment and report back to SHAC in January.
- D* 4. Entry and fire permit practices.
 - (* (1) Units will include as subject of a first quarter safety meeting, personally reviewing practices and procedures to insure they are adequate.
 - (2) Guest inspections scheduled for January will emphasize entry and fire permit practices. Areas should operate on the basis that inspectors will check every permit and observe every job in progress for safe practices.
- {* 5. Fire department and equipment. Glass and his group will handle.
- 1* 6. Nitrogen fittings, disconnect fittings. P-Bulletin ready for distribution; supplementary letter to be written to assist in implementation.
- p* 7. Respiratory protection. P-Bulletin circulating for signature. Departments will need to issue supplementary instructions to fully implement.

End Insert B.
