DATE December 22, 1964

FROM D. A. Daly

AT Middletown

JOB NO. 6471-00

SUBJECT Armco Project "600" - Middletown Works Expansion Program

DAILY PROGRESS REPORT NO. 199

Assigned Program Personnel, December 21, 1964:

Technical	68
Construction	12
Administrative	12
Clerical	29
Subcontract	4
Personnel on Loan	0
Total	125

Progress:

1. Open Hearth Slag Transportation: Proposals for routing of the railroad for handling Open Hearth slag were reviewed at a meeting with Armco. It was agreed that Open Hearth slag would be moved by rail over the existing loop track and by truck over existing roads to the slag dump. Both the loop track and roads are to be repaired to permit handling additional traffic.
2. Building Insulation: The advantages and disadvantages of the various types of insulation products available were reviewed during a meeting with Armco Metal Products Division and Owens-Corning-Fiberglas. Selection of types to be used will be deferred until drawings of building details have progressed.

Visitors:

None

Out-of-Town:

R. A. McNeil - Ashland. Tour for representatives of De Accero Del Pacifico (Chile).
