Subject: RE: Modified Contract and Response

Dear Howard,

We are reviewing API's latest proposed changes and additions to the contract. When this is completed I will suggest a suitable time for another call. In any case, it will not be before tomorrow.

Richard

We plan to send a markup on your draft with our comments in advance of the call.

Howard

Dear Howard,

Thanks again for your email. I am still working on finding a suitable time for a call. It would also help me if you could give me a heads up on what the few remaining items on which we may differ are. It will allow me to give some serious thought to those issues in advance and to be prepared to address them. The issues which I believe we need to address are those set out in my cover letter to you last night, for example, the type and amount of desired insurance (paragraph 7 of the agreement) and the scope of the work authorized by API-BHRC (paragraph 3 of the agreement). As to the latter, I don't believe there is a document which describes the work authorized on January 1, 2007 and it would be beneficial to all of us to have a clear understanding on that subject.

I appreciate your early response, I believe it will help us expedite the finalization of an agreement.

Thanks,

Richard

Thanks, Richard. I think we've narrowed our differences down to just a few remaining items. We would like to schedule a call for Wed (tomorrow), starting sometime between 2 - 4 EDT to reach agreement. Does that timeframe work for you and John? 2 PM EDT would be preferred. Otherwise, if necessary, please let us know a time on Thursday that would work for you.

Howard

Howard,

Attached please find Cinpathogen's edits and modifications to the API contract, a modified cost proposal and an annotated memorandum.

Richard
