Subject: Re: upcoming meetings/calls with SHS Principal Investigators

Dear Bruce:

Just want to let you know that all my three QA/QC reports have been distributed among both US and Chinese investigators. In particular, the one on exposure assessment has been sent to Tom Armstrong for his review and comment, but Tom has not responded yet.

Professor Fu informed me that he and his colleagues at Fudan are preparing a report summarizing the current status, problems, challenges and their perspectives of the SHS. Both Professor Liang and Fu have been communicating with Rob Schnatter on project management and personnel issues. I am happy to see such open and honest dialog from our Chinese collaborators. They are usually not very direct in verbalizing their concerns. We can discuss all these in the upcoming conference call.

Regards,

Otto

Great, and thank you... so long as the QA/QC material is also included in your upcoming progress report, I'm glad to see it early.

And I'll keep you posted as to potential times/dates for an Exposure Assessment meeting or call.

All the best - Bruce.
