DOCUMENT DESCRIPTION: Memo RE Non-Asbestos Ceiling Tile

PACO TEXTURES MEMO

TO: Frank Scaggs FROM: Doug Merrill October 8, 1976

SUBJECT: NON-ASBESTOS CEILING TEXTURE

Even though the state agencies in the Northwest have not taken a strong stand on asbestos, I'm sure the day will come. You should consider changing to the non-asbestos ceiling texture before it becomes required.

We have all of our California, Hawaii and Utah customers using our non-asbestos ceiling texture products, either 6373G (32#) or 6374K (40#).

There are some immediate advantages in going to these products, such as a $.46 per bag savings with the 6374K over the 6374H, which you currently buy. The factory would not have to purchase or handle the asbestos. Also, you would not run the risk as is the case with Kaiser in the attached article.
