RE: ASBESTOS

Dear George:

As per your June 5, 1985 request, attached is some information on asbestos exposure and compliance.

The OSHA standard for medical monitoring is still 0.1 fibers/cc based on a time weighted average (TWA) exposure. The OSHA P.E.L. is 2 fibers/cc.

I will forward a copy of the Asbestos Policy Committee's Report to the Governor in a few days.

Very truly yours,

Michael Glowatz, Jr.
