

1 Q Now, you were mentioning before -- these
2 studies, the Hong Kong study, the Finland study, these
3 are all studies, most of them done in the 1980s,
4 correct?

5 A Yes.

6 Q Now, and this is studies in the 1980s with
7 whatever asbestos materials, brake materials happened
8 to be that were in use at that time, correct?

9 A And maybe some old brakes, yes.

10 Q Now, I want to change the subject for a
11 moment and back to one of the questions you were asked
12 before.

13 Some of your other legal consulting work
14 involves a different type of cancer, not mesothelioma
15 cancer, but cancers of the blood system caused by
16 benzene, correct?

17 A Yes.

18 Q And do you recall testifying in a case and
19 being asked questions by me in three benzene blood
20 system cases that came out of a tire plant in
21 Virginia, testifying in Roanoke, Virginia at the
