THIS COPY FOR

PLAINTIFF'S EXHIBIT

GP-416

Please refer to the J. E. Watt bulletin of April 22nd, 1958 regarding the subject plaster.

All of the raw materials for this plaster are to be ordered through the General Purchasing Department with the exception of the Perlite. The Bentonite Clay and the 7D Asbestos will be ordered through the George A. Rowley Company of Philadelphia. The Tetra Sodium Pyro Phosphate will be ordered through individual Monsanto distributors and we have written to Monsanto to obtain the name of the proper distributor for each plant. Fort Dodge has been ordering this material in 300# lots. The Ultrawet DS will be ordered from the Atlantic Refining Company and is sold on a delivered price basis. We have also written to Atlantic to obtain price information for each plant. Fort Dodge has been ordering this material in two drum lots, each drum weighing 180#.

Send your requisitions to this office.
