Dear Bob:

You will be glad to know that our papers in the British Journal of Industrial Medicine are likely to be published quite soon. I enclose photocopies of the proofs for your information.

I returned from an extremely frustrating visit to Macon, Georgia last week. While I recognized the difficult strategic problem that the attorneys face, it is annoying to go down and back for nothing. I was also quite disappointed with the situation in Greenville, S.C.; I had little opportunity to present any evidence and then too late. It must be even more depressing for you.

Sincerely,

J. Corbett McDonald MD
Professor
