Jay,

You are most welcome. I am copying in Albert "Kel" Kelly to this email - he is working on Superfund issues for Administrator Pruitt and I think can be helpful to you as you work to bring the project to completion.

All the Best,  
Samantha

Samantha,

Thank you for taking the time to address the Institute of Scrap Recycling group this week. Your insight and candid comments on the agency and Director Pruitt's mission was very encouraging.

I have attached my card and will look to follow up as me team and I are looking to complete what has been a long process to complete the closure of a superfund site in Milwaukee Wisconsin. Everyone involved wants this improvement to be completed and a great deal of good work has been done we just need some help getting it over the finish line.

Thank you,

jay
