

INDEX

<u>Accident control by motivation</u>	810	<u>Noise (cont.)</u>	
<u>Air cleaning and recirculation</u>	800	jet aircraft, and building design	777
<u>Alcoholism in industry, program</u>	806	measurement, effect of environment	764
<u>Alkylaluminum compounds, hazards</u>	732	<u>Noise control</u>	
<u>Aluminum, hygienic status</u>	731	enclosure of transformers	781
<u>American Academy</u>		in offices	782
of Occupational Medicine, 1956 meeting	719	paper mill couch rolls	780
<u>Aminophenol, meta, toxicity</u>	744	<u>Noise reduction</u>	
<u>Ammonia poisoning</u>		by damping panels	778
plasma coagulation	726	engineering principles	774
serum proteins	727	by partial enclosures	776
<u>Asbestosis with pleural calcification</u>	761	in pump systems	779
<u>Atomic energy</u>		<u>Nitrogen oxides</u>	
peaceful uses, role of chemist	787	in automobile exhaust gases	803
safety record	791	<u>Nutrition in industry</u>	807
<u>Audiogram, use in industry</u>	766	<u>Nuclear energy, safety, bibliography</u>	786
<u>Audiometer(s)</u>		<u>Nuclear reactor</u>	
automatic	769	radiation hazard control	789
and uses	767	systems, safety	788
<u>Ballistocardiography in industrial medicine</u>	723	<u>Occupational health books, list</u>	717
<u>Cancer, occupational</u>		<u>Ozone, physiological effects</u>	728
environmental aspects	749	<u>Particle size</u>	
<u>Carbon monoxide</u>		separation and determination	799
determination in blood	797	<u>Peroxides, organic, hazards</u>	743
<u>Cold, common, and stress</u>	721	<u>Pesticides, toxic hazards, report</u>	745
<u>Dimethylnitroso amine, liver effects</u>	736	<u>Pneumoconiosis</u>	
<u>Dust control</u>		cork dust	762
in chemical plant	751	endogenous	760
in coal mines, water infusion	750	<u>Pulp and paper mills, safety standards</u>	812
<u>Epilepsy (Bk. Rev.)</u>	716	<u>Radiation</u>	
<u>Ethylene oxide, tolerance for residues</u>	735	cataracts, relation to dose	794
<u>Eye protection, benefits and costs</u>	783	exposure in submarine	790
<u>Flammable solvents</u>		<u>Radioactive</u>	
in first aid room	813	particles, effect on lungs	793
<u>Fume combustion, lithographing ovens</u>	802	waste disposal, engineering aspects	796
<u>Glaucoma, survey</u>	784	<u>Radium capsules, hazards</u>	792
<u>Group insurance plans, financing</u>	805	<u>Safety</u>	
<u>Health</u>		engineering, application of biomechanics	808
education programs	725	planning in plant design	809
insurance, survey (Bk. Rev.)	714	<u>Silica toxicity, neutralization in vitro</u>	759
<u>Hearing</u>		<u>Silicon excretion, effect of hormones</u>	757, 758
conservation, pamphlet	771	<u>Silicone manufacture, health of workers</u>	742
loss		<u>Silicones in medicine and surgery (Bk. Rev.)</u>	715
industrial, test	768	<u>Silicosis</u>	
legal aspects	772, 773	hazard in enameling	753
tests, mobile laboratory	770	hyaline tissue, studies	755
<u>Heat control by water spray</u>	785	pulmonary circulation effects	754
<u>Hydrofluoric acid discharge control</u>	804	<u>Sodium dichloropropionate</u>	
<u>Industry and medicine, mutual benefits</u>	718	tolerance for residues	739
<u>Knee joint derangement in miners</u>	811	<u>Sulfuric acid inhalation, effects</u>	730
<u>Lung structure, alveoli walls</u>	756	<u>Tamarind seed powder, weaver's cough</u>	763
<u>Mercury, determination in air</u>	798	<u>Tetrachloroethane poisoning in dock workers</u>	740
<u>Mineral oil residues, tolerance</u>	748	<u>Thioacetamide poisoning, liver effects</u>	737, 738
<u>Monuron, tolerance for residues</u>	746	<u>Toxicology of commercial products (Bk. Rev.)</u>	713
<u>Naphthalene, eye effects</u>	741	<u>Tricresyl phosphate poisoning, cases</u>	747
<u>Neurosis, traumatic, and compensation</u>	722	<u>Uranium, radiated, decontamination</u>	795
<u>Nickel poisoning</u>		<u>Ventilation equipment, plating room</u>	801
EDTA treatment	734	<u>Weight reduction, industrial program</u>	724
sodium diethyldithiocarbamate treatment	735	<u>Welding, inert gas, hazards</u>	729
<u>Noise</u>		<u>X-ray examinations, mass surveys</u>	
attenuation by walls	775	quarry workers	752
fans, measurement	765	response of workers	720
