

Heating Publishers, Inc.

2 West 45th Street
New York 36, N. Y.

FUELOIL & OIL HEAT

Now in its 37th year of publication; is edited for all oilheating and airconditioning men. Covers installing and servicing of all oilheating and airconditioning equipment, selling and merchandising from the dealer level. Technical articles, exclusive market reports on oilheating, airconditioning and fuel oil. The regular monthly *Commercial-Industrial Section* covers installing and servicing of heavy oilheating equipment, boilers, large capacity oil-fired air movers and heavy fuel oil. Member Audit Bureau of Circulations and Business Publications Audit of Circulation. Published monthly. One year \$3.00—3 years \$5.00.

GAS HEAT AND COMFORT COOLING

The complete heating and cooling magazine covering the use of equipment which uses gas as a fuel exclusively. Covers all forms of comfort heating and airconditioning; commercial-industrial, residential, etc. Technical articles, sales and merchandising, exclusive monthly report on gas heating and airconditioning retail equipment sales. Covers all equipment using gas for a fuel, airconditioning, water heaters, incinerators, furnaces, boilers, conversion burners. Edited for the retailer-installer, serviceman, contractor. Many readers are utilization engineers with gas utilities. Now in its 9th year. Member of Business Publications Audit of Circulation. Published Monthly. One year \$3.00—3 years \$5.00.

ELECTRIC HEAT & AIRCONDITIONING

A new magazine devoted to a relatively new art—comfort heating with electricity. Covers both residential and commercial applications. Electric heating is coming fast, particularly in areas where the air conditioning load has given the electric utilities a very large, peak summer load. When this peak presents a non-profit imbalance, the utilities create comfort heating rates and push hard for electric heating to build a winter load. It has zone control possibilities. In some areas insulation is recommended to make electric heating competitive. *Electric Heat & Airconditioning* covers all phases of this growing industry including heat pumps. No engineer in heating and air conditioning should ignore this new art. This is the only publication 100 percent devoted to electric heating. Member of the Business Publications Audit of Circulation. One year \$2.00—3 years \$5.00.

BOOKS OF PARTICULAR VALUE:

"Fundamentals of Year-Round Air Conditioning Controls with Oil Heating" (\$2.00 a copy).
"Summer-Winter Air Conditioning Controls for Gas Heat & Comfort Cooling" (\$2.00 a copy).

"Modern Gas Heating"

The first compilation of information devoted to gas heating installation and service work. Close to 100 pages with many illustrations—\$3.00 a copy.

"Better Oil Heating"

A service guide for operation and maintenance of oil burners. Bound in attractive paper cover 8 1/4 x 11. Nearly 100 pages, 125 illustrations, tables and service hints. \$2.00 a copy.

International Heating & Air-Conditioning Exposition

Permanent Address—480 Lexington Ave., New York 17, N. Y.

EXPOSITIONS HELD

Philadelphia, 1959; Chicago, 1957; Philadelphia, 1955; Chicago, 1953; Philadelphia, 1951; Chicago, 1949; New York, 1948; Cleveland, 1947-1940; New York, 1938; Chicago, 1936; New York, 1934; Cleveland, 1932; Philadelphia, 1930.

FUTURE SCHEDULE

2nd Southwest Heating & Air-Conditioning Exposition in Dallas—1960; scheduled for Chicago in 1961.

UNDER AUSPICES OF A.S.H.A.E.

These Expositions have been and will be held coincident with the annual meetings of American Society of Heating and Air-Conditioning Engineers, Inc., and under their auspices. Management is by International Exposition Company with permanent headquarters at 480 Lexington Ave., New York 17, N. Y.

EXHIBITORS

Comprise leading firms in each phase of the industry; number has varied from 150 to more than 400 exhibitors.

EXHIBITS

These range from and comprise all the types of articles discussed or advertised in this copy of THE ASHAE GUIDE.

1. The COMBUSTION Group:

Furnaces, burners (coal, oil and gas), grates, stokers, boilers, radiators (various types), refractories and auxiliaries.

2. The OIL BURNER Group:

Water feeders, water heaters, pumps, traps, valves, piping, fittings, expansion joints, pipe hangers, etc.

4. The STEAM HEATING Group:

Vapor heating, steam specialties.

5. The HOT WATER HEATING Group:

6. The AIR Group:
Warm Air furnaces and stoves, registers and grilles, cooling towers, air filters, motors, fans, blowers, conditioning equipment, ventilators (room and industrial types), unit heaters, etc.

7. The AIR CONDITIONING Group:

Equipment which circulates and filters the air, in summer dehumidifies and cools; in winter heats and humidifies, and does all these in proper season for complete, all year-round air conditioning.

8. The CONTROL Group:

Instruments of precision for indicating, controlling or recording temperature, pressure, volume, time, flow, draft or any other function to be measured.

9. The REFRIGERATING Group:

Compressors, condensers, cooling apparatus, contingent apparatus and refrigerants.

10. The CENTRAL HEATING Group:

Apparatus and materials especially designed or adapted to the uses of central heating and central heating station supplies.

11. The INSULATING Group:

Structural insulators (refractory and cellulose materials), asbestos, magnesia clays and combinations thereof, pipe and conduit covering, etc., weather-stripping, adhesives etc.

12. The MISCELLANEOUS Group:

Electric Heaters, boiler and pipe repair alloys, liquids and compounds, tools of all kinds, and equipment not specifically included in the above groups, but related thereto.

13. The MACHINERY AND GENERAL EQUIPMENT Group.

14. BOOKS AND PUBLICATIONS

VISITOR ATTENDANCE

Attendance is by invitation and registration only, thereby presenting a selected audience. Included are contractors, dealers, jobbers, supply houses, home owners, industrial users, professional and service organizations, public utilities, real estate management concerns, etc. A detailed analysis of registered attendance is available on request.

Industrial Expositions in America lead the expositions of the world in style, business effectiveness, industrial influence and educational value. This Exposition stands among the leaders in Industrial Expositions in America. It is an educational institution which brings together the research developments and improvements in equipment and materials for use in heating, ventilating and air conditioning all types of buildings.
