A ROOM You Didn't Know You Had . . .

THIS old-time attic, dusty and dismal, is worse than wasted space. In the summer, it offers the home little protection from the sun's hot rays. And in the winter, it lets in the cold and moisture, and runs up the fuel bill. Thus to transform the attic into a charming, livable bed room, or a play room for the children, by means of wall board insulation, is not an extravagance, but a real economy. Let us give you more facts and figures.
