

RUST-PROOFED!

when the paint is pure Red-Lead

TRADEMARKED LEAD PIPE

Lead pipe of our manufacture now carries the Dutch Boy trademark and also National Lead Company's name. This marking, stamped into the pipe every few inches, is your assurance of quality, proper wall thickness and correct weight per foot.

WHERE steel-work must serve unweakened for many years . . . on bridges, ships, tanks, steel structures of every type . . . there you find paint made of pure red-lead used.

Tested by more than a century of universal use, pure red-lead paint has proved its high protective value . . . its remarkable ability to prevent rust . . . its extreme durability even under severe conditions. It is recognized by paint authorities everywhere as the standard protective paint for metal.

Fine, uniform, highly oxidized . . .

there is no better red-lead obtainable than Dutch Boy red-lead. It comes in two forms . . . paste and liquid. The liquid (ready for the brush) is supplied in six colors—natural orange-red, light and dark brown, light and dark green, and black. The paste comes in natural orange-red and can be shaded to dark colors.
