September 24, 1969

NOTICE

This is to announce the appointment of Richard C. Rice to the position of Plant Manager, Churubusco Distribution Center.

Dick comes to Churubusco from our Axle Plant in Ft. Wayne where he spent six years as an assembler, production worker and machine operator; seven years in the time study and estimating departments; and eight years as a management employee. Since 1961 he has successively worked as supervisor of time study, production control coordinator, supervisor of inventory control and scheduling, production control manager, and for the past two years as a division superintendent of the finished goods department.

Dick, his wife and four children are natives of Decatur and presently live on a farm in a house he built himself. He is active in his church, an ardent sportsman, and an ex-Captain in the Indiana Air Guard. You may recall the Dana Digest article last Fall about his graduation from Indiana-Purdue in Ft. Wayne, after attending night school there for nineteen years.

This is also to announce Andy Duros will become my Administrative Assistant and much of his work assignment will have to do with coordination and systems projects between the Churubusco-Hagerstown Distribution Centers, and the plants which supply them.

I am sure you will give these men your wholehearted support.
