My dear Bob:

In connection with your recent letter enclosing some correspondence from Mr. Jordan on the subject of the location of warning signs on pumps, I asked Dr. Sayers for an informal opinion and have received a letter from him, copy of which is enclosed.

This leaves the matter still apparently very much up-in-the-air and I would appreciate your advice as to what, if anything, we should do in the matter.

Very truly yours,

(Signed) Graham Edgar.
