

ETHYL CORPORATION

MANUFACTURING DEPARTMENT

March 2, 1979

PLEASE ADDRESS REPLY
TO: BOX 341
BATON ROUGE LA 70821

TO: Members of the Vinyl Chloride Safety Association

A pool of U. S. members indicates a great interest in the EPA Final Control Devices and the safe practices and procedures involved in operating this equipment. Equal interest was expressed about any recent EPA inspections our membership may have experienced.

As a result, arrangements have been made to hold a one-day meeting at the Hyatt Regency in New Orleans on March 29, 1978, to discuss these subjects. Time for "True Confessions" will also be made available. Because of the limited time and specific nature of the meeting, mailouts will be confined to U. S. membership. Registration will be \$20 and will include the cost of lunch Thursday. It will be important to have at least one representative from each company who is completely familiar with their Final Control Device installation, its operation and effectiveness.

The hotel is holding a block of rooms for us for March 28. The rates are \$53 for a single room and \$63 for a double room per night. Reservations should be made by calling the hotel directly at the following number 504-561-1234. Please try to make reservations by March 16.

A finalized agenda will be forwarded as soon as it is complete.

H. G. Olson, Secretary
Vinyl Chloride Safety Association
