******* A message from the Coalition for Affordable Prescription Drugs (CAPD)**

One in two Americans rely on their employers to provide health care benefits. So, employers partner with PBMs to provide access to effective medications at the most affordable price. PBMs drive savings in part by using clinical expertise to identify generic alternatives that achieve the same health outcomes for a lower price. With generics accounting for 89 percent of prescriptions filled in 2015, but only 27 percent of drug costs, that represents a savings of \$227 billion across the U.S. health care system in just one year.
