QUICK DRYING ENAMEL**

OPA

■■000755

Manufactured by JOHN LUCAS & COMPANY, INC.

N 4763

DIRECTIONS FOR USE

The Quick Drying Enamel is a most desirable finish for decorating interior and exterior surfaces. It is a high gloss enamel that dries to a hard, durable film.

The Enamel will beautify walls, woodwork, doors, sills, porches and lawn furniture, drab houses, weathered roofs, radiators, toys, bicycles, cars, pottery, glass, mirrors, windows, etc.

Surfaces to be coated must be dry and free from grease and dirt. Wash with soap and water then rinse with clean water to remove soap. Allow lightly with No. 1 Sandpaper to produce a smooth surface.

One coat will be sufficient to cover an old painted surface of similar color, otherwise two coats are recommended. Apply Enamel as it comes in the can and allow first coat to dry hard before recoating.

Never expose the contents of this container to an open flame or fire.
