INTERDEPARTMENTAL COMMUNICATION

TO: Mr. E. B. Hollingsworth
FROM: H. W. Peele
SUBJECT: AKRON CHEST X-RAYS

DATE: May 16, 1973
LOCATION: Wilmington
LOCATION: Wilmington

**PLAINTIFF'S
EXHIBIT**
GP-245

This will confirm our conversation regarding the Akron, New York plant's Pre-Employment Physical Examination.

OSHA regulations require chest X-rays for employees who are exposed to asbestos dust during pre-employment, annual and terminal physicals. All new employees are subject to working in this area; therefore, the Akron pre-employment physical will include a chest X-ray, and this policy will continue until the use and handling of asbestos is discontinued.
