Dr. R. A. Kehoe.

Dear Dr. Kehoe:

The following is an extract from letter received from Ray Bevan regarding the employment of a medical consultant for Austria, Hungary and Czechoslovakia:

"This is to advise you that we have arranged to retain the services of Dr. Alfred Von Frisch of 11 Medizinische Klinik, Allgemeines Krankenhaus, Vienna IX, to act as our Medical Consultant in Austria, Hungary and Czechoslovakia at a fee of 3000 (Austrian) per month, plus travelling, laboratory and other expenses. Dr. Von Frisch's appointment will date from the first of the month during which he carries out an examination of the men to be employed on the mixing plants in any one of the three countries I have listed. This will mean that his appointment will probably date from the 1st March, but I will advise you later on this point."

Very truly yours,

V:P
