AIR

Adhesives and Sealants

California Regions AIR

Notice of the South Coast Air Quality Management District announces the availability of a preliminary draft amendment to regulations under Rule 1168 regarding volatile organic compound (VOC) emissions limitations for adhesives and sealants. The rule updates VOC limits and clarifies that the limits apply to adhesives, adhesive primers, caulks, sealants, or sealant primers sold, stored, supplied, offered for sale, or manufactured for sale in the state. The rule also excludes from requirements products for consumer use where the units of product weigh less than one pound and consist of less than 16 fluid ounces and where there is an applicable VOC limit in the California Air Resources Board consumer products regulation. In addition, the rule adds VOC content container labeling requirements and reporting requirements. A comment due date is not specified. Contact: South Coast AQMD; 909-396-2000

Regulatory Update

WATER

Sacramento and San Joaquin River Basin Plan

California Regions WATER

Notice of the Central Valley Regional Water Quality Control Board announces proposed amendments to the Sacramento River Basin and the San Joaquin River basin plan. The amendments clarify compliance requirements of the first phase of a previously adopted control program to meet salinity objectives, establish salinity water quality objectives, incorporate an implementation program on salinity objectives, set an electrical conductivity performance goal during specified times, require a monitoring and surveillance program on salinity objectives, establish a compliance date of Jan. 1, 2020, for the objectives, and provide a re-evaluation process for the control efforts. A comment due date is not specified. Contact: Pamela Creedon; CVRWQCB; 916-464-3291

Regulatory Update

WATER

Sacramento and San Joaquin River, Tulare Lake Basin Water Quality Control Plans
California Regions WATER

Notice of the Central Valley Regional Water Quality Control Board announces workshops regarding the triennial review of the water quality control plans for the Sacramento and San Joaquin river basins and the Tulare Lake Basin. Comments are requested on basin plan elements that may need amendment. The agenda includes identification of basin planning issues to be addressed over the next three years. The workshops are scheduled for Aug. 16 and 23, 2017, in Fresno and Rancho Cordova, respectively. Comments are due Aug. 31, 2017. Virginia

AIR

Emissions Trading Programs

Virginia AIR

Notice announces the intention of the Department of Environmental Quality, Air Pollution Control Board, to amend regulations under 9 VAC 5-140 regarding carbon dioxide (CO₂) emission reduction from electric power facilities. The rule addresses the trading of CO₂ allowances through a multistate trading program and abatement mechanisms that provide for a corresponding level of stringency to CO₂ limits imposed in other states with such limits. Comments are due July 26, 2017. Contact: Karen Sabasteanski; DEQ; 804-698-4426; karen.sabasteanski@deq.virginia.gov

AIR

SIP Revision/Northern Virginia Ozone Nonattainment Area

Virginia AIR

Notice of the Department of Environmental Quality, Air Pollution Control Board, announces a proposed revision to the state implementation plan regarding attainment of the national ambient air quality standard for ozone in the Northern Virginia ozone nonattainment area. The revision consists of a certification that the state's existing emissions statement requirements for the area are at least as stringent as the requirements under section 182(a)(3)(B) of the Clean Air Act. The revision will be submitted to the EPA for approval. Comments and hearing requests are due July 26, 2017. Contact: Karen Sabasteanski; DEQ; 804-698-4426; karen.sabasteanski@deq.virginia.gov
