224 W. Huron
Chicago, Illinois, 60610

Dear Hud:

On July 10, 1974, there was an organizational meeting of ASTM Committee F-18 on Electrical Protective Equipment for Workers. The meeting was held at the ASTM headquarters, 1916 Race St., Philadelphia, Pa.

As a result of this organizational meeting, the scope and structure of the committee was set forth as follows:

Title - Electrical Protective Equipment for Workers

Scope: The development of standards for purchase, acceptance, performance, testing, and use practices of devices, materials and equipment for protection of workers from electrical hazard.

Subcommittee Structure:

- .10. Test Methods
- .20 Tools
- .30 Equipment
- .40 Personal Equipment
- .50 Procedures & Practices
- .90 Executive
- .91 Editorial
- .92 Terminology

The committee elected the following officers:

- Chairman - Arthur Lewis, Public Service
Electric & Gas Co.
- Vice Chairmen - J. J. Keilen, Charleston Rubber Co.
Avery Neseth, Interna'l Brotherhood
of Electrical Workers
- Secretary - W. G. Pracejus, Electrical Testing
Laboratories, Inc.

In attendance were 60 individuals representing utilities, government agencies, NIOSH, labor unions and a broad number of suppliers to the utility industry.

No-further work has been done but I will keep the ISEA apprised of any further developments.

Sincerely yours,

THE SAGER GLOVE CORPORATION

Richard Sager
