East Chicago, Indiana

June 30, 1939

Dr. Robert A. Kehoe  
University Of Cincinnati  
Cincinnati, Ohio

Dear Doctor:

Your letter of June 24, in reply to mine of the 13th, was received several days ago but on account of some unforeseen things I have had little chance to review it until today.

Your first paragraph leaves very little chance for further inquiry with regard to lead in our Bessemer and Open Hearth departments, and I wish now to express my sincere appreciation for your kindness in giving me something of value.

I trust also that I may in the future be able to pass on to you something of value and hope that I may have the privilege of writing you again should further questions arise in connection with lead as pertaining to the manufacture of steel.

Very truly yours,

*H. M. Comb*  
Chief Chemist
